

# (Lunch &) Lighting Control Workshop

Join LPEA and representatives from Lutron Electronics and Louisa's Electronics to discover how lighting controls can benefit any interior space. This free informational workshop will focus on reliable LED dimming; simple wireless connections for lights, shades and temperature; daylight harvesting; occupancy sensors; building management sensors; and more – all with energy efficiency, safety and comfort in mind.

The workshop is designed for contractors, electricians, physical plant supervisors, architects, lighting designers – though homeowners interested in learning more are invited as well.

**Wednesday, March 22, 2017  
11 a.m. to 1 p.m.**

La Plata Electric Association Multi-Purpose/Board Room  
45 Stewart Street (Bodo Industrial Park), Durango

**Lunch included, reservations required.**
