A whole house fan is a type of fan, commonly venting into a home's attic, designed to circulate air in a home. It is sometimes confused with a powered attic ventilator, or attic fan, which exhausts hot air from the attic to the outside through an opening in the roof or gable at a low velocity. Attic fans, bathroom fans, HRV or ERV do not qualify for a rebate.

To apply for a Whole House Fan rebate, you must submit the following within 90 days of installation:

Completed and signed application

Receipt / Proof of Purchase (materials and labor shown separately)

Product Manufacturer & Model Number _____

Replacement New Installation

Date Installed _____

Signed _____ Date _____
