2019 ANNUAL REPORT

FROM THE PRESIDENT

BY BOB LYNCH BOARD OF DIRECTORS

was a good year at La Plata Electric. One of our priorities was to hire a new CEO to help LPEA achieve its overarching strategic goal as unanimously agreed by the board in 2018: to reduce its carbon footprint by 50% from 2018 levels by the year 2030, while keeping members' cost of electricity lower than 70% of its Colorado cooperative peers. We knew that achieving this would take a visionary leader, and a restructuring of the company and its priorities.

The board searched nation-wide for the right CEO. Fortunately, we were able to hire Jessica Matlock to be the 7th — and first female — CEO of LPEA. The board voted unanimously to hire Jessica based on her strong mix of experience and leadership capability. Since she began in July, she's made it her top priority to understand our communities and communicate how the LPEA team plans to achieve the goals the board has set. You will have an opportunity to meet her and hear her vision by attending the LPEA Annual Meeting at Pagosa Springs High School on Saturday, May 16 at 10:30 a.m.

As we look ahead to 2020, the LPEA board has many options to consider in continuing to deliver reliable, cost-effective

PRESIDENT

electricity to LPEA's members while also adapting to the rapidly changing energy world. Change is never easy, but we can choose a path that saves money in the longterm, moves LPEA towards a cleaner energy future, and maintains the service and reliability standards our members expect.

FROM THE CEO

BY JESSICA MATLOCK CHIEF EXECUTIVE OFFICER

t has been my great personal and professional pleasure to return to my home state of Colorado to join the La Plata Electric Association family. In my first six months as CEO, my strategic priority was to meet with as many LPEA stakeholders as possible to clearly identify the organization's strengths, weaknesses, and greatest opportunities. Based on this analysis — and together with staff, partners, members and the board — LPEA is embarking on a strategic realignment to prepare the utility to meet the goals set by the board, to provide better and more reliable services to our members, to be more transparent in our business practices, and to engage our communities in preparing our electric system to meet current and future needs.

2020 will be a big year for LPEA. We will explore ways to decrease our carbon footprint while keeping costs down. We will re-evaluate our programs to ensure they are meeting the needs of our members. We will also conduct major upgrades to our electrical system to ensure we can continue to provide reliable and safe electricity services to members. I look forward to leading the fantastic team at LPEA towards these ends.

JESSICA MATLOCK

LPEA ANNUAL MEETING Saturday, May 16

Pagosa Springs High School 9 a.m. Registration 10:30 a.m. Business Meeting

LPEA 2019 Activity Highlights

The LPEA team worked hard to improve service to members in 2019. Here's a highlight of the year's accomplishments:

STRATEGIC

- The Board of Directors unanimously approved the following strategic goal for the utility: "LPEA will strive to reduce its carbon footprint by 50% from 2018 levels by year 2030 while keeping members' cost of electricity lower than 70% of its Colorado cooperative peers."
- The Board of Directors hired LPEA's first female CEO in more than 80 years of operation.

LPEA's new outage texting service.

CUSTOMER SERVICE & COMMUNITY INVOLVEMENT

- Managed 43,916 calls, processed 13,383 service orders, and handled 50,271 payments.
- Improved network connectivity between LPEA's Pagosa and Durango offices to provide better customer service to Archuleta county.
- Implemented *TextPower*, which notifies members about power outages and allows them to report outages via text.
- Collected 1,760 pounds of food and \$447 in cash for local communities at our annual *Fill the Bucket Food Drive*.
- Awarded \$77,500, the first of our Renewable Generation Funds Grants, to four local not-for-profits to pursue solar generation projects.
- Held three blood drives, collecting 65 units of blood from 51 donors.
- LPEA employees donated more than \$1,600 to purchase necessities for 25 individuals between the ages of 3 and 71.

INFRASTRUCTURE IMPROVEMENTS

- Updated the Shenandoah substation and reconductored 15.5 miles of line to improve service and reliability to West Durango, Sunnyside, County Roads 318 and 500, and the Capote areas.
- Restored 44 outages affecting 11,280 customers in less than 15 hours during the February 14th snowstorm.
- Tested and replaced equipment throughout LPEA's service area to reduce the use of toxic polychlorinated biphenyl (PCB) materials in our infrastructure and assets.
- Captured updated aerial imagery of LPEA's service territory to improve the design of utility infrastructure for new and existing members.

ENERGY MANAGEMENT

- In 2018, LPEA finished switching all streetlights in its service area to energy efficient LED lights. This resulted in an estimated 900,000 kilowatt hour reduction in 2019, equivalent to the average annual usage of 115 homes.
- Created public and residential electric vehicle charging programs to support the use of electric vehicles in our service area now and in the future.
- Provided \$185,000 in rebates for member energy efficiency efforts including the installation of LED lights and the use of heat pumps and Energy Star appliances.
- Facilitated the interconnection and net metering of 200 members to support their installation and generation of rooftop solar. This is the highest annual number since the beginning of the program in 2003.

New energy-efficient LED streetlights in LPEA service area.
